Maths

This week in maths we have been learning about right angles. We know that a right angle is the same as a quarter turn. We've also been using the terms acute and obtuse to describe angles. We know that an acute angle is smaller than a right angle and an obtuse angle is greater than a right angle but less than a straight line.

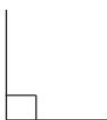

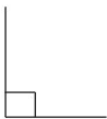

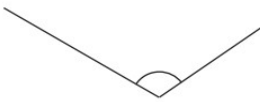

A right angle is in the corner of a rectangle or square.

Look at the angles below. Decide whether each one is a **right angle**, **bigger than a right angle** or **smaller than a right angle**. Write down your answer on the line.

1. 	2. 
_____	_____
3. 	4. 
_____	_____

Insert one of the symbols below into each box and decide whether each angle is acute, obtuse or a right angle. The first one has been done for you.

<	>	=
---	---	---

e.g.			
	Acute	<	Right angle
1.			
2.			

English

This week in English we have been learning about posters and adverts. Can you create a poster for the Brindishe Manor Summer Fair?
