

## This week's learning at Brindishe Lee...

Matisse made a picture of a snail that was made out of paper that looks like blocks. We tried to make it using coloured paper and ripped and cut big, medium and small squares. We copied a picture of a snail and stuck the pieces of paper on.

Reception

We did the inverse which means that  $5 + 5 = 10$  so  $10 - 5 = 5$ . We described Jack from *Jack and the Beanstalk*. He's reckless, cheeky, adventurous and thoughtful. We learnt about how to keep safe on the internet and to tell a trusted grown-up if you are worried.

Year 1

We've been doing a challenge that uses 20 lollipop sticks to make shapes and then write division equations. We also used graphs to plot the excitement level in *The Minpins*, *The Dog that ate the World* and *Black Dog*.

Year 2

We are recording how many roots are growing in our bean experiment. We've also been writing paragraphs about different senses when we stepped into *The Tin Forest*

Year 3  
Magnolia

In drama, we're acting out the play *Madagascar*. We've learnt that when playing roles, girls can play boys and boys can play girls. We've had a lot of fun in P.E. playing cricket - Ms Lovell has lots of amazing ideas!

Year 3  
Sycamore

We finished *Odd and the Frost Giants*! We thought it would end in a different way... In Art, we used clay to create pebbles and carved runes into them. Next week we're going to paint them bright colours.

Year 4

We researched rivers and made mindmaps about how they affect the economy, humans and wildlife. In Music, we're starting to compose our own music and played it to our partners.

Year 5

This week we've been swimming and learnt backstroke and front crawl. In Science, we learnt about classifying animals such as mammals, reptiles and amphibians.

Year 6

Our Sports correspondent is delighted that England and Wales are through to the final 16 in the Euro 2021 tournament! Our sympathy goes to Scotland who didn't make it through, but hope they can unite behind England and Wales.
